President's Message...

Dear fellow members of Angle East,

It is my pleasure to welcome Angle East back to Toronto, which we last visited in 2002. My personal roots in Toronto go back to 1994, which is when I met my wife, Sharon, then a resident of Scarborough. Since then, I have spent much time in and around the area, both for family visits and professional activities with the Royal College of Dentists of Canada. I have come to think of Toronto as a second home and I hope you will enjoy your visit here.

Historically, the city's modern origins go back to the early 17th century. According to one story, a lieutenant of Samuel de Champlain was sent into the area around the year 1615. He eventually came to find an area between two rivers, now known as the Don and the Humber, a place which was occupied by the Huron people. The name of this area, according to this account, meant 'meeting place', but this may not be the real story of the name. The region was known in the Iroquois language as tkaronto, which has been translated as 'where there are trees standing in the water'. The name Toronto stuck under the French on their territorial maps and, when the region was purchased from the Missasaugas in the late 1700s by Lord Dorchester, the transaction was known as the Toronto Purchase. Also known as the city of York (thanks to John Graves Simcoe, 1st Lieutenant General of Upper Canada), the name Toronto was written into the city charter in the early 1800s.

Whatever the name origins, Toronto has always been a meeting place and important center for commerce from well before the 1600s to the present, being close to the western end of the St. Lawrence Seaway. Much more than that though, Toronto has become one of the important metropolitan centers, not only of Canada, but also, of North America. It is a leading cultural hub, with important centers for art, music and theatre. Toronto boasts professional sports franchises in hockey, basketball, baseball and football and the city is also home to some of the best cuisine in North America.

Toronto is our meeting place in 2019. Arranging and holding our annual meeting is a team effort and I have been most fortunate to have a truly great team working with me. Margherita Santoro has been an exceptional Secretary-Treasurer, having been guided by Anne Todd, who this year has served again as the event coordinator for the meeting. Our excellent scientific program is being led this year by Ute Schneider-Moser; she has set a high bar with this year's schedule of papers, cases, pearls and discussions. Kolman Apt has done a great job with the newsletter this year. The rest of the Executive Committee has been integral to making this meeting a success and I thank them all. I particularly want to thank Turi Bassarelli and Elliott Moskowitz, the Chairs of the Examining and Academic Committees, along with all the members of their committees for their hard work; examining and reviewing guest and affiliate cases and papers is a monumental task, one that is integral to our activities. Lastly, I want to thank everyone who has prepared a paper, presentation, case, pearl, or critique for this meeting; without your efforts, this session would not be possible.

Our meeting is a shorter format and, as such, there is no specific social program. In your welcome packet, I will be including some ideas of things to do in and around the city in our brief free time on Thursday and Friday nights.

I look forward to seeing you all in April!

A handwritten signature in black ink, appearing to be 'D Briss', written in a cursive style.

After Harvey Peck's sudden death in 1981, his fellow-members of the Eastern Component felt that a memorial must be established to honor this great contributor to the fabric and dynamics of the Angle Society. Irving Buchin, our Director to the Central Body in 1982, suggested that a charitable fund be initiated in Harvey's memory. By 1984, Irv's initiatives had blossomed into the Eastern Component's highest recognition, the Harvey Peck Memorial Award. Jack Dale created a handsome award certificate to be presented to a member or other contributor for his or her high achievement in the pursuit of excellence in the specialty of orthodontics. Seven years elapsed before it was first presented to Wilfred Cohen in 1991.

The Eastern Component of the Angle Society has traditionally recognized outstanding commitment and meritorious service by a member to whom the annual meeting is then dedicated each year. By the mid 1990s, Angle members, led by the altruism of Sy Conarck, felt that these honorees deserved more formal recognition. Thus, the Distinguished Service Award and the presentation of an inscribed Paul Revere Bowl to the recipient was initiated by the Eastern Component in 1995.

Brainerd F. Swain (1911-1999), or "Barney" as he liked to be called, was the embodiment of the Angle East spirit for decades. Barney was an inspiration to all, a brilliant gentleman, who was also a gentle man. He was open-minded and meticulous in his work, a devoted educator and Angler. In 1999, the Angle East membership voted unanimously to create an award for the annually selected Best Paper of the meeting and to name it in honor of Barney Swain. The winner of the coveted "Barney", the Brainerd F. Swain Award of Excellence, receives a beautiful certificate designed by Jack Dale and the prestigious nomination to be speaker at the next EHASO International Biennial Meeting.
