President's Message...

Dear Fellow Angle Members, Affiliates, Guests and Spouses,

What a better symbol of the friendship between the American and French peoples than the Statue of Liberty overlooking New York harbor? This tall copper statue was a gift from the French citizens meant to celebrate the centennial of Independence Day, July 4th, 1776. The statue was conceived and built in the 17th arrondissement of Paris, shipped overseas in crates, assembled and erected on the completed pedestal on what was then called Bedloe's Island. The monument was finally dedicated with some delay on October 28th, 1886 by then President Grover Cleveland. Did you know that by coming to Alsace you are coming to the birthplace of its creator and sculptor Frédéric Auguste Bartholdi (1834-1904)?

Frédéric Aguste Bartholdi – Construction of the Statue of Liberty from 1876 to 1884 in the Gaget and Gauthier foundry located, 25 Rue de Chauzelles in the 17th arrondissement of Paris

It is a true honor and privilege for Nadine and myself to welcome you, all our friends, in our home town and region and to celebrate in a definitely more modest way, this transnational friendship once again.

The motto of this meeting is "Orthodontics: a Paradigm Shift?". We have seen our academia spending a lot of energy in the last 3 decades trying to get orthodontics to be more efficient and rational through the implementation of an evidenced-based approach. At the same time, we have observed the introduction by established orthodontic companies or new start-ups, of new devices supported by direct-to-consumer marketing strategies and outside investors. These major shifts of the orthodontic tectonic plates have profoundly modified our landscape. We are, however authorized to ask ourselves the following questions: have these developments made us move teeth better or as efficiently than we were doing before? How is orthodontics going to be performed in a 10- or 20-year time frame? Who is going to move teeth in the future: the orthodontist, the general practitioner or the patient themselves? What better forum than our reunion to try to answer to these far-reaching interrogations?

Margherita has put together an extraordinary and eclectic scientific program for us. Speakers from almost all continents will switch from artificial intelligence in orthodontics, to esthetics, TMJ's, Class II's, Class III's, maxillary constrictions, aligners and orthodontic education. What a feat!

Afternoons and evenings will be recreational. We have tried to have you discover, during your stay, the city of Strasbourg and we are planning, on Wednesday, to go to the countryside to give you a taste of this beautiful and pleasant region.

This meeting would not have been possible without the precious help of our super Secretary/Treasurer, Martin, and our extremely efficient Scientific Program Chair, Margherita. Our special thanks also go to the Chairs of the Examining and Academic Committees, Sylvain and Jean-Marc with whom I was fortunate to be able to communicate in French, and to all members of the executive and standing committees for their hard work and efforts.

Thank you all for having traveled so far; enjoy the wide-ranging lectures, the fruitful interaction with all our participants, Strasbourg, its winstubs and pastry shops!

Bienvenue en Alsace! Hope you will have a good time!

Warmest regards,

Nadine and Yves

ANGLE EAST — Edward H. Angle Society of Orthodontists

Strasbourg, France • Monday, June 26th — Friday, June 30th, 2023

Recipients of the **Harvey Peck Memorial Award**

Lysle Johnston	2019	Toronto, Ontario	Ashur Chavoor	2004	Boston, MA
Hugh Phillis	2016	Boston, MA	Jack Dale	2002	Toronto, Ontario
Raymond George	2016	Boston, MA	Brainerd Swain	1997	Montréal, Québec
Robert Vanarsdall	2014	Paris, France	Theodore Adler	1996	Annapolis, MD
Anthony Gianelly	2010	Ottawa, Canada	Coenraad F.A. Moorrees	1993	Asheville, NC
David Musich	2008	Charleston, SC	Everett Shapiro	1993	Asheville, NC
Sheldon Peck	2005	Philadelphia, PA	Wilfred Cohen	1991	Boston, MA

After Harvey Peck's sudden death in 1981, his fellow-members of the Eastern Component felt that a memorial must be established to honor this great contributor to the fabric and dynamics of the Angle Society. Irving Buchin, our Director to the Central Body in 1982, suggested that a charitable fund be initiated in Harvey's memory. By 1984, Irv's initiatives had blossomed into the Eastern Component's highest recognition, the Harvey Peck Memorial Award. Jack Dale created a handsome award certificate to be presented to a member or other contributor for his or her high achievement in the pursuit of excellence in the specialty of orthodontics. Seven years elapsed before it was first presented to Wilfred Cohen in 1991.

Recipients of the **Distinguished Service Award**

David De Franco	2022	St. Pete Beach, FL	Sheldon Peck	2009	Newport, RI

Raymond George	2012	Boston, MA	S. Charles Conarck	1997	Montréal, Québec
Robert Vanarsdall	2011	Providence, RI	Jacob Harris	1996	Annapolis, MD
Leena Peck	2010	Ottawa, Canada	Joseph DiStasio	1995	New York, NY

The Eastern Component of the Angle Society has traditionally recognized outstanding commitment and meritorious service by a member to whom the annual meeting is then dedicated each year. By the mid 1990s, Angle members, led by the altruism of Sy Conarck, felt that these honorees deserved more formal recognition. Thus, the Distinguished Service Award and the presentation of an inscribed Paul Revere Bowl to the recipient was initiated by the Eastern Component in 1995.

Brainerd F. Swain (1911-1999), or "Barney" as he liked to be called, was the embodiment of the Angle East spirit for decades. Barney was an inspiration to all, a brilliant gentleman, who was also a gentle man. He was open-minded and meticulous in his work, a devoted educator and Angler. In 1999, the Angle East membership voted unanimously to create an award for the annually selected Best Paper of the meeting and to name it in honor of Barney Swain. The winner of the coveted "Barney", the Brainerd F. Swain Award of Excellence, receives a beautiful certificate designed by Jack Dale and the prestigious nomination to be speaker at the next EHASO International Biennial Meeting.
